

Point 1

Timings:
18.17 mins video time
40 mins practice time

Aim of the lesson:

That every child will

- know how to **create and remember** a point using the Scatter, Gather, Sort , See method.
- know how to **deliver their first point** using all their public speaking tools.

Preparation:

Class list: This will be used to award the purple stars for excellence.

This lesson takes place in the classroom but the class need to be ready to **stand to deliver the point**.

The class will be asked to **'sort out their words'**.

They will do this very well if they see you doing the same.

When you give the command, you visibly 'sort out' your words.

Be sure to use your own strong commanding presence, strong voice, good eye contact and excellent gestures when you 'lead' during the 'pause to practice'.
